

ManageEngine ServiceDesk Plus

Leverage Office 365 as a key channel for IT support

The cloud version of ServiceDesk Plus offers integrations with various Microsoft applications to help IT technicians and end users complete multiple tasks right from their Office 365 or Outlook mailboxes.

Contextual Office 365 integrations for ITSM teams

Actionable messages

Use the action buttons in your email notifications to act on support tickets from your Outlook or Office 365 mailbox.

ServiceDesk Plus add-in

Bring your help desk to your Outlook or Office 365 mailbox, and perform help desk activities without even accessing your help desk portal.

Office 365 calendar

Automatically create Office 365 calendar entries from reminders in ServiceDesk Plus, and sync reminders and leave days between ServiceDesk Plus and Microsoft Office 365 calendars.

Microsoft Teams

Let your technicians and end users create, track, and manage all their requests from within Microsoft's chat and collaboration platform, Teams.
